

Our client is a globally successful, family-owned company and a leader in premium health supplements and direct sales. To strengthen its scientific leadership and drive innovation, the company is seeking a General Manager Science to shape and execute its global science strategy.

General Manager Science (m/f/d)

The role:

- Report directly to the CEO on all Product Development and Regulatory Affairs activities
- Define and implement the product development strategy in close collaboration with the CEO
- Oversee product development, scientific validation, and regulatory affairs
- Ensure scientific credibility across all markets and product categories
- Collaborate with R&D, marketing, legal, and external research institutions
- Monitor global regulatory developments and ensure full compliance
- Report directly to the owner and CEO

Your profile:

- The ideal candidate combines a strong scientific background in Nutrition, Pharmacy, Medicine, or a related field with a genuine passion for advancing the science of nutritional supplementation.
- PhD in Life Sciences, Nutrition, Pharmacy, or related field (required)
- Senior leadership experience in scientific or R&D roles, ideally in nutrition, health, pharma, or FMCG
- Deep knowledge of international regulatory environments
- Strong communicator with strategic thinking and business orientation
- Fluent in English; German is a strong asset

What's on offer:

- High-impact executive position with scientific authority
- Global scope and responsibility in a fast-growing, innovation-led company
- Competitive executive package and relocation support to Luxembourg
- Housing allowance and company car
- Agile, entrepreneurial, and international culture

If you would like to take on this opportunity, we look forward to receiving your detailed application, including your salary expectations and earliest possible start date. Please send your documents directly to Mr. Oliver Breininger. Absolute confidentiality is guaranteed.
